KEY BUSINESS INSIGHTS

Revenue & Profit

Revenue fell 7.0% ($520,424) vs LY, while profit fell 16.7% ($365,545), indicating stronger pressure on profitability.

Volume & Transactions

Units fell 1.5% (8,419) and transactions fell 3.0% (12,428) vs LY, indicating softer customer activity.

Margin Performance

Trading margin fell 3.1 pp to 26.2% vs LY, indicating pressure on profitability.

Category Focus

Electronics margin declined 6.3 pp vs LY, making it the key category focus.

Store Focus

Mexicali 1 store margin declined 7.6 pp vs LY, making it the key store focus.

Assumptions (for selected Scenario)

Price Change %: 1

Elasticity (Demand Sensitivity): -2.0

HOW TO USE THIS PAGE

1. Adjust the Price Change % and Elasticity assumptions using the controls.
2. Review the sensitivity curve and outcome comparison to understand potential impact.
3. Use the product opportunities table to identify where price changes can create the most value or risk.

This analysis is based on current-period performance and user-defined elasticity assumptions.

Elasticity is a user-defined assumption used to estimate demand response to price changes.
